Company Overview

NexGen Gurus LLC is a SAM.gov registered enterprise networking and federal IT consulting firm led by Francis Forsang, Principal Network Architect with 15+ years of multi-vendor enterprise networking and cloud experience — Cisco, Juniper, Aruba, HP, AWS, and Azure. The firm designs, secures, and modernizes enterprise and federal networks, bringing private-sector engineering rigor — built across roles at organizations including the Office of the Comptroller of the Currency (OCC), Collins Aerospace, and Deloitte — to government missions and commercial enterprises alike.

Core Competencies

- Enterprise Networking — Multi-vendor routing, switching, and campus/WAN architecture (Cisco, Juniper, Aruba, HP)
- SD-WAN — Design, migration, and management of software-defined wide area networks
- Cybersecurity & Zero Trust — Zero Trust architecture, segmentation, and threat-aware design
- Cloud & Hybrid IT — Hybrid cloud connectivity, migration, and infrastructure modernization
- Federal IT Consulting — NAICS-aligned consulting for federal network modernization contracts
- IT Training & Staffing — Cisco CCNA/CCNP/SD-WAN, CompTIA Security+/CySA+, and AWS/Azure cloud training, career coaching, and technical staffing

Differentiators

- 15+ years of hands-on, multi-vendor enterprise network architecture experience — Cisco, Juniper, Aruba, HP, AWS, and Azure
- Principal-level engagement on every project — not a rotating bench of junior staff
- Security built into network design from the first diagram, not bolted on afterward
- Direct experience supporting regulatory (OCC), aerospace (Collins), and consulting (Deloitte) environments
- Active training pipeline producing Cisco-, Security+/CySA+-, and AWS/Azure cloud-certified engineering talent

NAICS Codes

Code	Description
541512	Computer Systems Design Services
541519	Other Computer Related Services
541330	Engineering Services
541611	Administrative Management & General Management Consulting Services

611420	Computer Training
517110	Wired Telecommunications Carriers

Contract Vehicles & Teaming

NexGen Gurus LLC is positioned to pursue federal opportunities through GSA Multiple Award Schedules (MAS) and NASA SEWP, and is open to teaming and subcontracting arrangements with primes seeking specialized network architecture, cybersecurity, and IT consulting expertise.

Past Performance — Government & Commercial Clients

- **Government:** OCC / U.S. Treasury, FDIC, DC Office of the Chief Financial Officer, AC Transit (California), Federal Working Group
- **Commercial:** Collins Aerospace (an RTX Business), Verizon, Max Cybersecurity, Washington Research Library Consortium (WRLC), Learning Tree International
